REAL CHANGE, IN OUR COMMUNITY

SUMMER CELEBRATIONS & ECONOMIC RECOVERY

This Summer, our community has come together for community events like Pride, Canada Day, and the Cloverdale Market Days. While COVID is still lingering, I am glad to see our community recovering and returning to the celebrations we all love.

I have spoken with many businesses and families about how the cost of living and inflation has added to pressures and anxieties. I have also heard about the labour shortage. While this creates greater economic security for workers, it also puts pressure on the economy.

Our government is acting to ease the cost of living and inflation to support businesses and families. We are working with industries to ease supply chains and labour shortages. We are also reducing wait times for travel and government documents like passports.

John spoke at this year's Surrey Pride event.

Canada Day in Cloverdale-Langley City.

TACKLING THE COST OF LIVING

The cost of living is rising. To ease the cost of living, while bringing down inflation, we are implementing a series of cost-saving measures:

- Indexing supports including the Canada Child Benefit and Old Age Security to inflation
- 50% reduction in childcare fees this year
- Introducing free dental care
- Supports for rent and post-secondary education for those most impacted

John visited students and staff at Tong Louie YMCA and Relate Church, hired through Canada Summer Jobs.

John in the Community

CLOVERDALE MARKET DAYS

After a brief hiatus, Cloverdale Market Days are back! This is a fantastic way to get out and see historic downtown Cloverdale and support small businesses. It continues throughout the summer. I encourage everyone to check out the variety of vendors that are there.

Guru Nanak Food Bank Visit

It was a privilege to tour the Guru Nanak Food Bank and see firsthand how they supported families throughout our province who were devastated by last year's fires and floods. They continue to support thousands of families each month with their program. I was honoured to be able to present them with the Queen's Platinum Jubilee Pin, which signify a dedication of service to our community.

SURREY PRIDE

I was honoured to speak at this year's Surrey Pride Festival. It was great to see everyone gathered to celebrate Pride month. This event was a fantastic way to celebrate the resilience, spirit, and presence of LGBTQ2+ people in communities across this country and to recognize the immense contributions of the community to every facet of Canadian Society.
