REAL CHANGE, IN OUR COMMUNITY

CLOVERDALE—LANGLEY CITY IN THE SUMMER

I am looking forward to being back in Cloverdale—Langley City this summer. While I return each weekend and there are some constituency weeks between September and June, there is nothing like returning for the summer. I will be speaking with constituents, local business, and working with community organizations throughout the Summer.

This is a critical time for me to hear the concerns and major issues in our community. With the cost of living rising, I want to hear from you how our childcare plan is helping, what you think about our housing and dental plan, and any gaps in our efforts to support Canadians.

While I hope to be talking to as many of my constituents as I can this summer, I encourage you to send a free survey to me found on the back of this letter. I will make sure to get back to you promptly.

John attending the Gapyeong Ceremony at the Derek Doubleday Arboretum Langley.

John visiting Darshana: a glimpse into the Hindu Civilization exhibition.

LEGISLATION THAT WORKS FOR YOU

Since May 1st, Parliament has sat until midnight to get legislation debated and passed for Canadians. There are a few outstanding bills that I am eager to see pass before this summer:

C-5, Addressing Mandatory Minimums

- Repeal mandatory minimum penalties for certain offences to address systemic racism
- Require addiction treatment options for individuals found with simple possession

C-11, Protecting Canadian Content

- Ensure a level playing field between traditional broadcasters and online streamers, so everyone pays their fair share

C-18, Protecting Free and Independent Press

- Require tech giants to fairly compensate publishers and journalists for the content shared on their platforms.
- Preserve and support free and independent media.

C-19, Budget Implementation

- Double Canada's housing supply and make it easier to buy your first home
- Deliver dental care for children under 12 years old this year and for families making less than \$90K by 2025

John in the Community

GAPYEONG CEREMONY

It was an honour to be asked to speak at the memorial honouring the veterans and the soldiers who made the ultimate sacrifice during the Battle of Gapyeong. This memorial is held yearly at Derek Doubleday Arboretum in the Township of Langley. I would like to thank our veterans for their service in protecting Canada, our allies, and democracy.

SULLIVAN HEIGHTS ELEMENTARY VISIT

I visited two grade 7 classes at Sullivan Elementary. They asked about the war in Ukraine, housing, and the environment. One of my favourite parts of being MP is speaking with the youth in our community. If you would like me to visit your classroom, please do not hesitate to reach out to my constituency office at 604-575-6595.

SPECTRUM SPECIFIC PRODUCTS

I met with a local business, Spectrum Specific Products. They produce innovative fertilizers for saplings that could help advance our 2 billion tree program. It was a great visit to see firsthand how the process works.

DARSHANA: GLIMPSE INTO HINDU CIVILIZATION

I attended Darshana, an exhibition that offered an opportunity to learn about one of the world's oldest religions. This exhibit will help inspire further understanding of Hindu practices and culture - not only the positive impact that it has had on our community, but also across Canada and around the world.
