I AM BACK AND READY TO WORK FOR YOU

Having been first elected in 2015, I am honoured to be back for my second term as the MP for Cloverdale—Langley City. I look forward to representing you and our community for the next four years. I will work each and every day on your behalf to move forward on the needs and issues of Cloverdale—Langley City.

While recognizing that elections are partisan by their very nature, I believe the MP's office must serve all constituents. I will be working to implement our platform commitments in the 44th Parliament. These include Canada's economic recovery, finishing the fight against COVID-19, climate action, childcare, reconciliation, and more.

I want to make sure the diverse voices of Cloverdale—Langley City are heard and fairly represented. Please take the time to share your thoughts through any of the methods contained in this newsletter including social media, phone,

email or letter. Letters sent to my Ottawa office do not require postage.

I apologize for the delays in getting our constituency office opened. Many delays were beyond our control while waiting for the House of Commons to install phones and computers. We are now fully functional and ready to serve you. Most issues can be resolved virtually but we are also available for booked in-person visits. COVID protocols apply.

I look forward to moving forward, together, for a better future for Cloverdale-Langley City.

Sincerely,

John outside of the constituency office in Cloverdale-Langley City

John being sworn into the Canada's 44th Parliament with his wife, Elaine, and two of his three children.

"I am ready to act on the national and local promises I made to you"

RESTORE POSITIVE & INCLUSIVE POLITICS

We will bring back positive, progressive, and inclusive politics starting with convening a Fairness, Diversity, and Inclusion Council to create solutions that reduce inequality in our community. The council will advise me on policy and legislative changes targeted specifically at inequalities Cloverdale—Langley City residents face.

BUILD A GREENER, MORE RESILIENT ECONOMY

Ensure Cloverdale – Langley City is part of our transition to a greener, more resilient economy. Create green jobs in our community and across sectors. Make sure the oil and gas sector is net-zero by 2050. Boost clean and renewable power from coast to coast to coast. End plastic waste by 2030. Protect more lands and water.

DELIVER SKYTRAIN TO LANGLEY CITY

Deliver Skytrain to Langley City and other infrastructure improvements for our growing community. Secure the necessary funding for transit improvements and other projects that support the current and future needs of our community, and work with provincial and municipal partners to ensure they get prioritized and completed.

FIGHT FOR OUR AGRICULTURAL SECTOR

Fight for the needs of our farmers and agricultural sector. I will convene an Agricultural Advisory Council of farmers and other agricultural industry partners to advise me on policy and legislative changes that support strong and sustainable agriculture in Cloverdale—Langley City.

IMPLEMENT \$10 A DAY CHILD CARE

We will reduce fees for child care by 50% in the next year and deliver \$10 a day child care within five years or less. Through this process, we will build 250,000 new high-quality child care spaces and hire 40,000 more early childhood educators. This will save the average family in our community about \$10,000 per child annually.

SUPPORT THE PERFORMING ARTS

Support the Performing Arts in Cloverdale—Langley City. Secure federal support for accessible, sustainable spaces where the people of Cloverdale—Langley City can celebrate and experience our vibrant performing arts community.
